Yes Yes Yes! Would definitely recommend Grace Atelier Weddings in a heart beat to any bride to be out there! Its amazing how Jasmine is such a warm, cheerful and bright person that you instantly feel so much at ease with her, where you don't get judged for not being the typical skinny bride. Though the range of gowns they have is not huge, they are exquisite, every piece tells a different story/fits a different personality. Being in the creative/branding industry, I look at details alot, and I love details! In the end, I had trouble picking out my wedding dresses cause they are all so gorgeous! Ada and Pamela, the bridal stylists there, are such sweethearts too! GAW have awesome partners as well, special mention to Pui Ser from wildflower thoery, the hand bouquet especially was what I envisioned and they smelled so good!

In summary, thank you for making my cinderella dream come true and I am so grateful to have found friendship in you Jasmine! I will miss coming to the shop to play dress up!

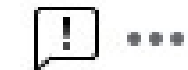

With all my love (this is not paid review),
Gwen

Would highly highly recommend Grace Atelier Weddings. They consistently went above and beyond for me making sure I was happy with everything. My original plan was to get 1 gown from Grace Atelier and another gown from somewhere else but 1 month before my wedding, the other place was not able to fulfill their duty which set me in panic mode but Grace Atelier very quickly swooped in to save the day when they really didn't have to. They took my problem with another gown designer and made it their problem. They brought in a whole new gown collection for me to choose from and did all the alterations super quick for me. I went to countless bridal boutiques but chose Grace Atelier not only because of their modern, gorgeous gowns but more so for their impeccable service from the start. In the whole wedding planning process, I've learned that service and reliability is SO important even if you have to spend a little extra than you were planning to, it is so so worth it. Thank you Grace for helping me find my dream gowns and being so good to me ❤️

Jasmine is a very cheerful and patient person. She treats us well. She didn't hesitate to let my Wife try out ALL their gowns. In the end we have a hard time choosing, because all their gowns are so stunning and gorgeous. I'm a little flicker minded, but Jasmine did not rush us into deciding. I think my wife is the happiest girl that day because she got to try many gowns. Their fitting room complements the gown perfectly. Each time my wife steps out of the fitting room curtain, she looks amazing.

We've been to a few bridal shops before coming to Graceatelier. I think the service and the bond is important. I would say Jasmine cliques well with us and she understands our needs. If you can't decide on the gown you can always rely on Jasmine to give good advice.
